LA VETRINA COMPATTA

Molto di più di una semplice vetrina gelato.
Linee semplici, spazi contenuti e visibilità ottimale.

THE COMPACT SHOWCASE

Much more than an ice cream cabinet.
Plain lines, reduced spaces, ideal visibility.

	TEMPERATURA DI ESERCIZIO WORKING TEMPERATURE	RESA COOLING CAP.	ALIMENTAZIONE ELETTRICA ELECTRIC SUPPLY	POTENZA ASSORBITA MAX POWER INPUT	PESO NETTO NET WEIGHT
G6	-18/-20 °C	1550W	400V/50Hz	1300W	230 KG
G9	-18/-20 °C	1750W	400V/50Hz	1500W	340 KG
G12	-18/-20 °C	2160W	400V/50Hz	1800W	450 KG

STRUTTURA:

- Basamento in tubolare
- Vetro frontale monolitico riscaldato apribile verso il basso
- Spalle in vetro camera
- Colori serigrafie fianco teminale in vetro camera: cornice perimetrale RAL 9006, porzione centrale RAL 7016
- Plafoniera di illuminazione a LED sul tettino
- Chiusura posteriore con tendine o scorrevoli

STRUCTURE:

- Tubular structure
- Tempered heated frontal glass openable downwards
- End side heated glasses.
- Silk-screen printing color end side panel: outside frame RAL 9006, internal part RAL 7016
- LED lighting on top
- Rear closure with rolled curtain or sliding doors

TECNOLOGIA:

- Quadro comandi del tipo elettronico con termostato e termometro digitale
- Sbrinamento automatico programmabile
- Unità refrigerante interna con condensazione ad aria (optional ad acqua) compressore semi ermetico 380/3/50Hz. Su richiesta compressore ermetico 220/1/50Hz

TECHNOLOGY:

- Electronic control board with digital thermometer and digital thermostat.
- Programmable electronical defrosting
- Internal air refrigerating unit (water-collad as optional) semi-hermetic compressor 380/3/50Hz. On request hermetic compressor 220/1/50Hz

OPTIONAL:

- Finitura del pannello di rivestimento frontale personalizzabile con RAL a scelta
- Canalizzazione

OPTION:

- Finishing customisation RAL
- Canalization
